

PEACE IMPOSSIBLE AT PRESENT, SAYS SENATOR LODGE

Convinced by Trip Abroad That War Must Be Fought to Decisive Issue - Urges Neutrality.

NEW YORK, Sept. 22.—Henry Cabot Lodge, accompanied by his wife, returned from Europe this morning on the Olympic, after somewhat of a trying experience on the Continent. Senator Lodge said:

"I am chiefly interested in having the United States maintain strict neutrality. I mean a neutrality which is not relaxed at one point to help one belligerent and tightened at another point to harm another belligerent, but a neutrality that is absolutely honest and equally rigid toward all belligerents. The time may come, I hope it will come, when our good offices may be effectually used for the restoration of peace, but this time has not yet come."

"I take no sides. I advocate no cause in saying this, but we ought to look facts in the face. We must dismiss from our minds any idea of a speedy peace, which will leave everything in the same condition as it was on July 1. This will never be. Either Germany will dictate the terms of peace or the Allies. There will be no half way about it. If Germany conquers France, England and Russia will dominate Europe, and will subsequently extend that domination, if she can, to the rest of the world."

"The British and the French are fighting the battle of freedom and democracy against militarism and autocracy. The battle for public laws against the laws of sword and gun, the battle of small nations to exist. Russia believes it is fighting against German domination for the freedom and the right of Slav population everywhere. The Allies are determined that they will put an end to the conditions which made the hideous calamity of this war possible. They will fight on until that purpose is accomplished."

"The Olympic also brought several prominent financiers, who have been spending some time in England and on the Continent. Among them was George F. Baker, chairman of the board of directors of the First National Bank of this city, who returned after a stay in England of several months."

RECEIVER FOR IRON CO.; EUROPEAN WAR BLAMED. Camden Concern Says World Carnage Has Cut Down Orders.

The effect of the European war on American business again expressed itself today in the form of a receiver for the Iron and Steel Manufacturers' Co., of Camden, N. J., and 1024 Ridge avenue, this city. Kern Dodge was appointed receiver under a bond of \$50,000.

Although the company is solvent, having \$10,000 worth of assets over and above its liabilities, it was set forth that a receiver should be appointed to intervene and take charge, as there are no immediate assets on hand to meet the current indebtedness on account of the present state of the financial market and the war in Europe. Because of these conditions, it is stated, the contracts for work to be performed by the company have largely fallen off and earnings are insufficient to meet operating expenses.

The company has a large liability which will shortly be reduced to judgment. Certain creditors have been pressing for their claims and have threatened to sue for attachment on the materials and supplies of the company, which are necessary to run the business.

James S. Merritt, president of the company, filed an answer to the bill admitting its allegations and joining in the prayer for the receiver, in order that the assets would be conserved for the benefit of the creditors and stockholders.

The receiver is authorized to take full charge of the company's affairs and run the business until further order of court.

CONFEREES' REPORT READY ON ANTI-TRUST MEASURE. Senate to Get Revised Bill Before Adjournment Tonight.

WASHINGTON, Sept. 22.—The conferees on the Clayton anti-trust bill reached a final agreement today. Senator Culberson will make the report to the Senate before adjournment tonight. The conferees put back in the bill the House provision prohibiting interlocking directorates of banks. The amendment of the Senate, offered by Senator Reed, provides for the corporations violating the anti-trust laws to persons who would restore competition, was stricken out finally.

The Senate amendment relating to using contracts was retained. This amendment, which was offered by Senator Walsh prohibits tying or exclusive contracts, who the goods sold or leased are patented or unpatented.

WARMING UP FOR MAYORALTY. Boom Started for Two Republican Candidates at Wilmington.

WILMINGTON, Del., Sept. 22.—Despite the fact that a state campaign is now on Wilmington Republicans are seeking a candidate for mayor.

CROCKERY PLANT BURNS. WASHINGTON, Sept. 21.—Fire today partly destroyed the plant of the E. H. Adams Company, wholesale crockery and glassware, on Pennsylvania avenue near the Capitol. The loss was \$50,000.

DECISION WITHHELD IN SUIT OF OPTOMETRISTS

Court to Decide Question of Exemption From Examination. President Judge Willson and Judge Audenried, in Court of Common Pleas No. 4, are holding under advisement the question of whether optometrists should be exempt from the rules of the State Bureau of Medical Education, following the hearing of argument on the point today. Alexander Martin and Otto G. Hausman, practicing optometrists, applied for an injunction to restrain the State Bureau of Medical Education from enforcing new regulations adopted in July. Deputy Attorneys General Wolf and Cunningham support the powers of the board, and Owen J. Roberts appeared for the complainants. Mr. Wolf explained that a demurrer had been filed against the bill for an injunction, attacking the suit on technical grounds. The new regulations call for more extended studies in anatomy, physiology and practical and theoretical optics.

WOMEN'S FIGHT FOR CLEAN BREAD LACKS THE LAW'S BACKING

State Department Rules It Cannot Enforce Compulsory Wrapping of Food Asked for by Local Associations of Workers.

The efforts of hundreds of women in Pennsylvania and particularly in Philadelphia to compel food dealers to be more careful in the display of food in stores, particularly the sanitary wrapping of bread, has received a severe setback in the public announcement of a ruling by General Counsel Woodward, of the State Department of Agriculture, extracts of which are printed by Food Commissioner James Foust in the current issue of the official Food Bulletin of the department.

Mr. Woodward rules that the law forces any successful prosecution to the point where it must prove that the food is handled in such a way that it is rendered contaminated, not in such a way that under certain conditions it might be rendered so.

For months the Civic Club of Philadelphia, with the support of the New Century Club, the Philomath Club, the Home Economics Association of Philadelphia and the Woman's Organization of the National Retail Druggists, have been trying to obtain a ruling that would force the wrapping of bread, believing that in many cases disease is carried through the medium of exposed bread. The first intimation that the desired ruling could not be obtained came last March, when Mr. Foust, while stating that he was in thorough accord with it, said that as he could not make a ruling it did not authorize any such stringent order. He referred the matter to Mr. Woodward for an opinion and was sustained.

Mr. Foust, in the current bulletin, reviews the correspondence in the matter to show how inadequate are the laws of Pennsylvania on pure food legislation. Concerning the jurisdiction of the commissioner he quotes, in part, as follows from Mr. Woodward's opinion:

"It must be conceded, I think, that as Dairy and Food Commissioner you have no power to make laws. The Legislature of the State is the only law-making power under the constitution of the State. The Legislature is not alone the only law-making power, but it has no power to delegate the legislative authority vested in it by the constitution. Therefore the Legislature has no power to grant you authority to make any law. As an executive officer, you cannot, by a rule or regulation extend the law beyond its letter so as to include anything not covered by a proper construction of the law. If you cannot, therefore, under the law, punish a person who delivers bread without the wrapping of the same, when you have no rule or regulation on said subject, the making of such a rule or regulation will not aid you in securing the punishment of such person."

U. S. TO GET ALIENS JOBS. Employment Bureaus to be Established in Cities by Government.

What has long been sought by students of the immigration problem, particularly as it concerns the employment and distribution of labor, is now about to be realized in the contemplated establishment by the Government of information and employment bureaus in 18 of the big industrial cities of the country. One of these bureaus will be established in this city, in connection with the local immigration station, and will include the district of Pennsylvania, Delaware and West Virginia. Preparations are already under way for the establishment of the bureaus, declared Commissioner of Immigration Greenwalt today.

Mr. Greenwalt will have supervision of the new bureaus, although one of his assistants will be placed in active charge of the work of finding employment for newly arrived immigrants. The latter will receive from the bureaus free information on employment matters. This, it is expected, will materially reduce the number of unemployed aliens, with many of whom unemployment is chronic.

By interchanging information, the bureaus in the industrial centers of the country will co-operate with each other in moving and distributing the unemployed and equalizing the labor market. The plan is "to bring the man to the job and the job to the man." The work will be conducted under the general supervision of the Department of Labor.

FIREMAN'S GOAT TIED TO TREE. Engine Company No. 7 Leaves It There After Hard Run.

The goat of Engine Company No. 7, Frankford avenue and Rowan street, was lost last night. It is firmly tethered to a big tree in the city park on Nicetown lane, east of G street.

It happened this way: Last night the company responded to an alarm that took them three miles along the plant of the E. H. Adams Company, wholesale crockery and glassware, on Pennsylvania avenue near the Capitol. The loss was \$50,000.

1000 Cigarettes as Booty. Accused of stealing more than 1000 cigarettes from the cigar store of Phillip Bergman, York and Woodstock streets. John Thompson, 27 years old, 800 North Thompson street, was held in \$500 bail for court by Magistrate Morris this morning. Thompson asked to use the telephone in the case No. 7 came to Nicetown while left alone there concealed the cigarettes beneath his coat.

"PORK BARREL" CUT BY SENATE CAUSES PROTEST IN HOUSE

Friends of Projects Not Included in \$20,000,000 Appropriation May Revolt and Defeat Measure.

WASHINGTON, Sept. 22.—Murmuring of a revolt in the House against the cut in rivers and harbors appropriations to \$20,000,000 by the Senate today were heard among friends of projects left out of the measure. This brought the suggestion from Senators favoring waterway improvements that even the \$20,000,000 appropriation might be put in jeopardy before the matter finally is closed.

A strong sentiment was apparent on the House side which indicated that the Rivers and Harbors Committee of the lower body might disagree to the Senate measure. It was pointed out that the return to the Senate by the House of a bill differing from that passed by the Senate, with the temper of the Senate still on edge as a result of the long filibuster, seriously might threaten the passage of any waterways bill.

The bill as passed provided for the allotted amount to be expended "under the direction of the Secretary of War and the supervision of the Chief of Engineers for the preservation and maintenance of existing river and harbor works and for the construction of such projects heretofore authorized as may be most desirable in the interests of commerce and navigation and most economical and advantageous in the prosecution of the work."

The Newlands River Regulation Commission scheme was defeated in committee by a vote of 3 to 6. It was provided, however, that the allotment for the Mississippi River up to the mouth of the Ohio shall be expended in accordance with the plans, specifications and recommendations of the Mississippi River Commission.

NEGRO WOMEN ARRESTED. Must Account for Strange Death of a Railroad Trainman.

ALLEN TOWN, Pa., Sept. 23.—Three Negro women are under arrest, and the police are looking for two Negro men in connection with the mysterious death of day of Orlando Miller, a railroad trainman, 25 years old. He came to police headquarters and said Mrs. Susan Douglas, when he asked her for a drink at her house, had given him carbolic acid instead of gin, but he exonerated her. By the time he was rushed to the hospital he was dead.

The surgeons said carbolic acid was not the cause of death, as there were no marks of that poison. Mrs. Douglas, Helen White and Julia Hatcher were quickly rounded up to await the result of a postmortem examination and the coroner's inquest.

Live Stock and Grain Burned. RIDGENTOWN, N. J., Sept. 22.—The outbuildings of Frank Haines, at Colum-

bus, a few miles from here, were destroyed by a fire with five horses, one colt and 200 bushels of wheat, straw and hay last night; loss \$7000.
